**WILD EDIBLES:** As part of our camp experience, we give the children in third grade and older the choice of tasting some of the wild edible plants in the area. We teach campers the proper ways to identify wild edibles and remind them to never eat anything without an adult present. All of the wild edible plants that our campers eat are double-checked by counselors and Camp Directors. Wild edibles we may taste include wineberries, blueberries, wild onions, honeysuckle, black birch, and sassafras. Please sign if you DO want your child to participate in the activity of tasting wild, edible plants, if they wish.
